

THE HEAVY-DUTY RANGE

Powerful and rugged tyre-changing solutions for truck, bus, agricultural vehicle and earthmover wheels

PRESENTING THE **COMPLETE JOHN BEAN**TRUCK TYRE CHANGER SERIES

Accurate and gentle

Adaptor assembly (220 – 280 mm Ø)

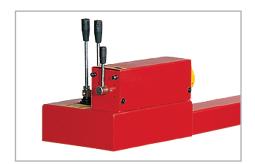

T8010TR

- T8010 TR The compact tyre changer for rims of 16 24.5": ideal for forwarding agencies, municipal truck fleets and mobile service trucks for mounting and demounting of tubeless truck and light-truck tyres
- Access ramp for easy loading of the tyre changer
- Two rollers for bead breaking and tyre changing speed up operation. Both the inner and outer beads are demounted in a single process without need for readjustment of the mounting tool
- Demounting tool included in standard equipment
- The roller reduces the cycle time with new tyres
- The tool allows gentle handling of retreaded tyres
- Easy control with integrated control unit
- Clamping of wheel through the centre hole with cone/adaptor assembly
- Special adaptor backplate prevents slipping of wheel

The mounting clamp, a strong aid

Control console

T8026

- T8026 The compact tyre changer for rims of 13 26": ideal for tyre shops for mounting and demounting of tubed and tubeless truck and bus tyres on drop-centre and split-ring rims
- Electro-hydraulic drive
- Mobile control unit
- Positioning of wheel and tool within a wide accurate adjustment range
- Infinitely self-centring universal hydraulic chuck
- Bead breaker roll and mounting/demounting tool fitted on swing arm
- Safety valve on chuck prevents accidental unclamping of wheels

Chuck

The chuck is of solid design to accommodate wheels of up to 1000 kg. A non-return valve prevents the chuck from opening in case of a sudden hydraulic pressure drop..

Bead breaker

The bead breaker disc is equipped with a special tilting system in order to increase bead breaking effort and to make sure the bead breaking disc is always in optimum position relative to the rim.

The mounting clamp, a strong aid

Control console

Chuck

The chuck is of solid design to accommodate wheels of up to 1500 kg. A non-return valve prevents the chuck from opening in case of a sudden hydraulic pressure drop.

BEAD BREAKER

The bead breaker disc is equipped with a special tilting system in order to increase bead breaking effort and to make sure the bead breaking disc is always in optimum positionrelative to the rim.

T8056 / T8056R / T5600

- T8056 The compact tyre changer with double reinforced frame for rims of 12 32": ideal for tyre shops for mounting and demounting truck, bus, agricultural vehicle and earthmover tyres
- Rugged chuck design
- Mobile control unit with switch to control two operations simultaneously
- 2 Chuck speeds, preset via switch

ADDITIONAL FEATURES OF T8056R

- T8056R The compact tyre changer with double reinforced frame and hydraulic control, for rims of 12 - 32": ideal for tyre shops for mounting and demounting truck, bus, agricultural vehicle and earthmover tyres
- Hydraulically controlled tool holder and chuck arm
- Automatically rotating tool
- Mobile control unit fitted on swing arm

ADDITIONAL FEATURES OF T5600

- T5600 The compact tyre changer with patented bead breaker disc, for rims of 14 44": ideal for tyre shops for mounting and demounting truck, bus, agricultural vehicle and earthmover tyres
- Patented bead breaker disc for increased bead breaker effort

T8058

- T8058B The tyre changer for rims of 4 58", for wheels up to 2000 kg, 1.5 m wheel width and 2.5 m wheel diameter: ideal for tyre shops for mounting and demounting heavy-duty truck and commercial vehicle tyres
- High bead breaking force of up to 3.8 t, even for tightly fitting tyre/wheel assemblies
- Lowering of chuck to 350 mm to facilitate accommodation of rims of small diameter
- Control console with switch for simultaneous control of two functions
- 2 Chuck speeds of 4 or 8 rpm to be preset by switch. Slow speed allows thorough monitoring of critical operations, whereas quick speed allows quick mounting/demounting in uncritical phases.
- Connecting cable between machine and control unit

ADDITIONAL FEATURES OF T8058BA

 Control unit ergonomically fitted on swing arm, no disturbing cables

ADDITIONAL FEATURES OF T8058WL

- Radio-controlled operation
- Automatic operation of mounting tool and preset tool carriage travel
- Automatic switching off extends the life of hydraulic motor and hydraulic oil and most of all saves energy.

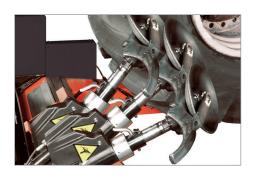

Extremely vast clamping range

Clamping range of 4" - 58" without extensions - long jaws accommodate rims of high offset

Mounting tool

The mounting tool is adjustable by 180 deg. irrespective of arm position.

Hydraulically adjustable tool support

Special design

Adjustable studs ensure long life of the chuck arm hinge.
